## 1. Overview of UMVA Scripts Marketplace

UMVA Scripts Marketplace offers premium PHP scripts, mobile apps, games, and digital products at up to 94% off original prices. Whether you need an eCommerce platform, a social networking script, a learning management system, or a business automation tool — we have you covered with full source files, documentation, and instant delivery.

The marketplace is part of the UMVA ecosystem — a digital business platform also offering web hosting, domain registration, software licensing, SMS & WhatsApp API, and more.

### AI-Powered Script Search

Describe what you need and our AI will find the perfect script for you. Just type what you are looking for — "eCommerce PHP script with multi-vendor support", "WhatsApp marketing tool", "React Native food delivery app" — and get instant relevant results.

### Key Highlights

- Save Up to 94% — Premium scripts originally worth \$50-\$1,800+ for as little as \$5-\$25
- Instant Delivery — Download immediately after payment. No waiting for manual approval.
- 30-Day Free Re-Downloads — Lost your files? Re-download for free within 30 days.
- Full Files & Documentation — Complete source code, installation guides, and required assets.

## **2. Why Choose UMVA Scripts**

### **Up to 94% Off Original**

We source premium scripts originally priced at \$50-\$1,800+ and offer them at a fraction of the cost. Most products are between \$5-\$25, giving you massive savings compared to buying directly.

### **Full Source Files Included**

Every purchase comes with the complete, unmodified source code. No stripped versions, no missing files — you get everything you need to run the script on your server.

### **Complete Documentation**

Each script includes full installation documentation, user guides, API references, and configuration manuals. Deploy with confidence even if you are not a developer.

### **24/7 Support & Help**

Our support team is available around the clock via ticket system. Whether you need help with installation, configuration, or troubleshooting — we are here for you.

### **Custom Edits Available**

Need a modification? We offer custom editing services. Tell us what changes you need — design tweaks, feature additions, or integrations — and our developers will handle it.

### **Deployment Assistance**

Not tech-savvy? We can deploy the script on your hosting/server for you. Just purchase and tell us where to install — we will take care of the rest at a small fee.

### **Instant Access After Purchase**

Payment confirmed? Your files are ready instantly. Download directly from your account dashboard with no delays.

### **30-Day Re-Download Window**

Accidentally deleted your files? You can re-download any purchased script for free within 30 days of purchase.

### **3. How It Works**

Get your script in three simple steps:

#### **Step 1: Browse & Choose**

Explore our marketplace with thousands of scripts, apps, and digital products. Use categories and our AI-powered search to find exactly what you need.

#### **Step 2: Purchase Securely**

Pay using Visa, Mastercard, Verve, USDT, or cryptocurrency. All transactions are encrypted and secure.

#### **Step 3: Download & Deploy**

Download your files instantly from your dashboard. Deploy on your own server or request our team to deploy it for you. Full documentation included.

## 4. Product Categories

Thousands of digital products across 8 categories — all at unbeatable prices.

### 4.1 PHP Scripts

PHP scripts are server-side web applications built with PHP — the most popular backend programming language powering over 77% of all websites. Our marketplace offers complete PHP applications (Laravel, Core PHP, CodeIgniter) that are ready to deploy and use.

#### What You Will Find

- Laravel & Core PHP applications — eCommerce, LMS, CRM, ERP
- SaaS platforms, multi-vendor marketplaces, booking systems
- Social networking scripts, WhatsApp automation, AI tools
- Crypto exchange platforms, fitness management, email verification tools

#### Sample Products

- InfixHub Ultimate Digital Marketplace — \$499 value for \$29.94
- MartFury Multivendor Laravel eCommerce — \$349 value for \$20.94
- Email Verifier Pro — \$349 value for \$20.94
- Flangapp PRO — SaaS online app builder — \$314 value for \$18.84
- zCart Multi-Vendor eCommerce Marketplace — \$299 value for \$17.94

### 4.2 Mobile Apps

Mobile app templates are complete, ready-to-publish applications built with Flutter, React Native, and native frameworks. These come with both frontend mobile code and backend admin panels (usually Laravel), giving you a fully functional mobile + web solution.

#### What You Will Find

- Flutter & React Native app templates — Android & iOS ready
- Ride-sharing, food delivery, eCommerce, social media apps
- Full mobile applications with Laravel admin panels
- Crypto wallets, taxi booking, live streaming apps

#### Sample Products

- VCoinLab Crypto Wallet React Native — \$799 value for \$47.94
- Exicube Taxi App — \$699 value for \$41.94
- Exicube Delivery App — \$699 value for \$41.94
- Trace Social Network with Live Streaming — \$499 value for \$29.94
- Shortzz TikTok Clone Flutter/Laravel — \$199 value for \$11.94

### 4.3 HTML5 Games

HTML5 games are browser-based games built with HTML5 Canvas, JavaScript, Construct 3, Phaser, and Unity WebGL. They work on any device with a browser without requiring app store downloads.

#### What You Will Find

- Construct 3, Phaser, and pure HTML5/JS game templates
- Puzzle games, racing games, arcade, board games and more
- Monetization-ready with ads and in-app purchase support

### 4.4 JavaScript & Plugins

JavaScript plugins and libraries are reusable code packages that add specific functionality to websites and applications. This includes Node.js packages, React components, Vue.js templates, jQuery plugins, and API integrations.

#### What You Will Find

- Node.js, React, Vue.js, and jQuery plugins & extensions
- WordPress plugins, WooCommerce add-ons, Elementor widgets
- API integrations, chatbots, and automation tools
- Full-stack solutions with both frontend and backend code

### 4.5 eCommerce & CMS

eCommerce and Content Management System (CMS) scripts are complete web applications for building online stores, marketplaces, and content-driven websites. Built with PHP/Laravel, these are full-featured business solutions ready to deploy.

#### What You Will Find

- Multi-vendor marketplaces, dropshipping platforms, POS systems
- Inventory management, pharmacy management, food ordering
- Content management systems and website builders
- Niche-specific solutions — car rental, real estate, restaurant management

### 4.6 AI & Automation

AI and automation scripts are cutting-edge applications that leverage artificial intelligence, machine learning, and workflow automation to streamline business processes.

#### What You Will Find

- AI content generators, chatbots, voice assistants, image tools
- WhatsApp marketing, social media automation, CRM platforms

- AI-powered SEO tools and business intelligence dashboards
- SaaS-ready platforms with multi-tenant support and subscription billing

## 4.7 WordPress Plugins

WordPress plugins extend the functionality of WordPress websites. From WooCommerce add-ons and LMS systems to SEO tools and membership platforms — plugins turn a basic WordPress site into a powerful web application.

### What You Will Find

- WooCommerce extensions — B2B, multi-vendor, booking, membership
- SEO tools, AI content writers, marketing automation
- Appointment booking, event management, email newsletters
- Import/export tools, Google Maps plugins, and more

### Sample Products

- B2BKing WooCommerce B2B & Wholesale Plugin — \$849 value for \$50.94
- MarketKing Multi Vendor Marketplace — \$749 value for \$44.94
- SalesKing Sales Team Plugin — \$649 value for \$38.94
- Alomatic Automatic AI Content Writer — \$249 value for \$14.94
- Bookly PRO Appointment Booking — \$199 value for \$11.94

## 6. After-Purchase Services

Additional services you can request after purchasing any script from your account dashboard.

### Self-Deploy (DIY)

If you have basic hosting skills, you can install the script yourself. Every purchase includes the complete source files and detailed documentation to guide you through setup.

- Full source files included with every purchase
- Step-by-step installation documentation provided
- 30-day free re-downloads if you need a fresh copy

### Request Deployment Assistance

Not comfortable with installations? After purchasing a script, go to your purchases dashboard, open the product details, and request deployment assistance. Our team will install it on your server for a small additional fee.

- Available only after purchasing a script
- Request from your purchase details page
- Provide hosting/server details and we handle the rest

### Request Custom Modifications

Need design changes, feature additions, or integrations? Custom modification services are available after you purchase a script. Submit your modification request and our development team will provide a quote.

- Design tweaks, feature additions, API integrations, and more
- Branding modifications, layout changes, new modules
- Payment gateway integrations, third-party API connections

### Need Help or Have Questions?

If you need assistance before purchasing — whether about script compatibility, features, or requirements — our support team is here to help.

- 24/7 support via ticket system
- Pre-purchase questions welcome

## 7. Payment Options

### Accepted Payment Methods

- Credit & Debit Cards — Visa, Mastercard, American Express, Verve. Securely processed with encryption.
- Cryptocurrency — USDT (Tether), USDC, Bitcoin, Ethereum, and other major cryptocurrencies. Fast and borderless.
- Bank Transfer & Direct Deposit — For larger orders or bulk purchases. Ideal for business purchases.

### Secure Checkout

All transactions are processed over encrypted connections (SSL/TLS). Your payment information is protected and never shared with third parties. 100% secure shopping experience.

## **8. Delivery, Access & Re-Downloads**

### **Instant Delivery**

As soon as your payment is confirmed, the product becomes available for download in your account dashboard. No waiting for manual approval — you get immediate access to your purchased files.

### **30-Day Free Re-Downloads**

Lost your files or need a fresh copy? You can re-download any purchased script for free within 30 days of purchase. Simply log in to your account and download again.

### **Full Files & Documentation**

Every download includes the complete source code, database files, assets, and full documentation. Nothing is stripped or removed. You get the same complete package regardless of the discounted price.

## 9. Frequently Asked Questions

### **How can you offer scripts at up to 94% off the original price?**

We source scripts through strategic partnerships and bulk licensing arrangements that allow us to offer them at significantly reduced prices. The files are complete and identical to what you would get buying directly — same code, same features, same documentation, same updates.

### **What payment methods do you accept?**

We accept Visa, Mastercard, American Express, Verve, USDT (Tether), USDC, and other major cryptocurrencies. All transactions are processed securely with industry-standard encryption.

### **Do I get the full source files and documentation?**

Absolutely. Every purchase includes the complete, unmodified source code — nothing is stripped, removed, or altered. You get the full PHP files, database schemas, JavaScript/CSS assets, images, and any other resources needed to run the script. Comprehensive documentation is included.

### **How do I get the files after purchasing?**

Delivery is instant. As soon as your payment is confirmed, the product becomes available for download in your account dashboard under "My Purchases." You can download the files immediately with 30-day free re-download access.

### **Can you deploy the script for me?**

Yes! If you do not have the technical skills to install the script yourself, we can deploy it on your hosting/server for a small additional fee. Open a support ticket with your server details (cPanel login, FTP credentials, or SSH access) and we will handle the entire setup process.

### **Do you offer custom modifications or edits?**

Absolutely. We offer custom editing services for any script purchased from our marketplace. Whether you need design changes, feature additions, API integrations, or bug fixes — our development team can handle it. Contact us with your requirements for a quote.

### **Do you offer refunds if the script does not work?**

If you encounter issues that cannot be resolved, please contact our support team within 7 days of purchase and we will review your case. We offer support for installation and configuration issues. If the script has a genuine defect, we will work with you to resolve it or provide a suitable solution.

### **How long can I re-download my purchased files?**

You have 30 days from the purchase date to re-download your files for free. If you accidentally delete your files or need a fresh copy, log in to your account and download again at no additional cost.

### **Can I use the scripts for commercial projects?**

Yes, our scripts can be used for commercial purposes. You can build websites, applications, and platforms for your clients or your own business. Each purchase covers use on a single domain. Contact us for multi-license pricing. Redistribution or resale of the raw source code is not permitted.

**What if I cannot find the script I am looking for?**

Use our AI-powered search to look through our entire catalog. If you still cannot find what you need, contact us with the name or link of the script you want. We are constantly adding new products and may be able to source it for you.
